☆The above maintenance schedule is established by taking the monthly 620 miles or 1000 kilometers as a reference which ever comes first.

✕Have your motorcycle checked and adjusted periodically by your Authorized Dealer or Franchised Dealer to maintain the motorcycle at the optimum condition.

Code: I – Inspection, cleaning, and adjustment R – Replacement

C – Cleaning (replaced if necessary) L – Lubrication

Remark: 1. Clean or replace the air cleaner element more often when the motorcycle is operated on dusty roads or in the Heavily- polluted environment.

2. Maintenance should be performed more often if the motorcycle is frequently operated in high speed and after the motorcycle has accumulated a higher mileage.

【Notes in the remarks are used to indicate the applicable models.】
